England again becomes a province a defining moment in early history not everyone is so satisfied with being occupied however. Boudicca a woman of the ice sonny tribe in particular was not satisfied. Boadicea was the wife of a very important tribal figure who maintained an alliance with the Romans however after her husband's death? The Romans turn on them.Â But the lack of political unity in England prevented any united response against the viking raids in the beginning now. I said. 60 years I don't mean to mislead you to think that after these 60 years the things got better on the contrary they got worse. The Vikings say instead of raiding England let's just go and take it over and so in the year. 865 a few viking leaders actually assemble an army to go and do this. It's not clear. There is evidence of the African presence in London, England, from Roman times to the present day. Burials at Roman London's cemeteries have revealed that the settlement was a "a highly multicultural society". Using bioarchaeology, DNA analysis and the examination of grave goods archaeologists at the Museum of London have identified a number of burials of people with "black African ancestry" who had both travelled to and were born in London during the Roman period.
