Career counseling, also known as career guidance, is counseling designed to help with choosing, changing, or leaving a career and is available at any stage in life. One's career is often one of the most important aspects of adulthood, and embarking on a new career, whether for the first time, the second time, or any time thereafter, can be a stressful event, especially when economic difficulties such as recession are a factor. A career counselor can help by outlining and discussing one's potential career options. What Is Career Counseling? Choosing a Career. How Career Counseling Can Career counseling is related to other types of counseling (e.g. marriage or clinical counseling). What unites all types of professional counseling is the role of practitioners, who combine giving advice on their topic of expertise with counseling techniques that support clients in making complex decisions and facing difficult situations. Career counseling is focused on how the individuals manage their journey through life, learning and work (career). This includes career exploration, making career
