Let us know whatâ€™s wrong with this preview of The Language Arts by Ronald L. Cramer. Problem: Itâ€™s the wrong book Itâ€™s the wrong edition Other. Courses in listening and speaking skills have a prominent place in language programs around the world today. Ever-growing needs for fluency in English around the world because of the role of English as the worldâ€™s international language have given priority to finding more effective ways to teach English. It is therefore timely to review what our current assumptions and practices are concerning the teaching of these crucial language skills.Â This booklet explores approaches to the teaching of listening and speaking in light of the kinds of issues discussed in the preceding paragraphs. My goal is to examine what applied linguistics research and theory says about the nature of listening and speaking skills, and then to explore what the implications are for classroom teaching.

a balanced literacy approach. supporting student success in reading, writing, listening and speaking. This document is designed as a reference tool for K-9 educators. Balanced literacy is an instructional approach for Language Arts. This means that teachers must explicitly teach and model comprehension strategies that students can use as a "toolbox." 3. Each day, students have structured talk about their reading. Talking is thinking and is the foundation of literacy. Talking is thinking and is the foundation of literacy. 4. Each day, students listen to an adult fluently read aloud in order to hear what effective reading sounds like and to develop an appreciation of reading. 5. Each day, students write something meaningful. The purpose of language learning is to improve the speakers' four skills of listening, speaking, reading and writing, with the base of large vocabulary and good grammar, but this is not the final purpose. The final purpose is to let speakers be able to... In addition, teaching the learners a lot of listening activities is a good way of enlarging their vocabulary. On the other hand, it also helps the learners improve their listening comprehension. For instance, people know that the largest difference between mother language learning and foreign language learning is the environment. For a foreign language, we can meet it only in formal places and classes. Training and practicing the oral reading is not a day's work. Practice is important. Described by reviewers as one of the most comprehensive and complete texts to be published in the field in years, Teaching the Language Arts provides readers with a truly balanced approach to the teaching of language arts with an emphasis on the arts themselves. Written with the belief that all children and teachers possess creative potential, the author masterfully integrates essential elements of phonics instruction with critical principles of literature-based instruction, namely literature, comprehension, writing, and oral language. Cramer's engaging writing style leaves readers feelin

6 A Balanced Literacy Approach Balanced Literacy in Grades The language arts program has uninterrupted blocks of time with a minimum of 40 minutes each, total time of minutes. 2. Each day, students read something of their choice with fluency and understanding. This means that teachers must explicitly teach and model comprehension strategies that students can use as a toolbox. Talking is thinking and is the foundation of literacy. 4. Each day, students listen to an adult fluently read aloud in order to hear what effective reading sounds like and to develop an appreciation of reading. 5. Each day, students write something meaningful. everyday provides invaluable practice, opportunities for feedback and reflection about the writing. "Phonics" emphasizes the alphabetic principle—the idea that letters represent the sounds of speech, and that there are systematic and predictable relationships between written letters and spoken words, which is specific to the alphabetic writing system Children learn letter sounds (b = the first sound in "bat" and "ball") first and then blend them (bl = the first two sounds in "blue") to form words. Children also learn how to segment and chunk letter sounds together in order to blend them to form Listening as a skill takes priority over details of language content. Along... Along this shift different approaches were chosen to teach listening. In late 1960s and in the early 1970s comprehension approach was used. It was a teacher centered approach in which no attention was given to mistakes or what may cause these mistakes. Teachers focused upon the outcome of listening rather than upon listening itself, upon product rather than process. Learners kept experiencing the same difficulties in same listening exercises as they were not taught how to deal with them. Comprehension approach provided practice in listening but failed to practice it.

6 A Balanced Literacy Approach Balanced Literacy in Grades The language arts program has uninterrupted blocks of time with a minimum of 40 minutes each, total time of minutes. 2. Each day, students read something of their choice with fluency and understanding. This means that teachers must explicitly teach and model comprehension strategies that students can use as a toolbox. Talking is thinking and is the foundation of literacy. 4. Each day, students listen to an adult fluently read aloud in order to hear what effective reading sounds like and to develop an appreciation of reading. 5. Each day, students write something meaningful. everyday provides invaluable practice, opportunities for feedback and reflection about the writing. There is another approach to teaching reading called the "Whole-Language Approach". Whole-language is a constructivist approach to education; constructivist teachers emphasize that students create (construct) their own knowledge from what they meet. Whole-language instructors also encourage a love for reading, and focus on guided reading activities, and reading aloud. Students are encouraged to participate in group reading sessions, as well as individual reading time. The Role of Writing in the Whole-language Approach. Writing also plays a large role in whole-language instruction. Teachers who use this approach exclusively do not place heavy emphasis in the early grades on spelling and grammar.
