Using as his case study In this study of black factory workers, Bruce Williams analyzes the racial discrimination that persists in
the workplace despite federal regulations aimed at expanding opportunities for minorities. Focusing on a suburban industrial plant,
Williams presents a rich and convincing portrayal of the strategies and interactions that result in discrimination. Using as his case study
a once predominantly white, working-class community, which is now home for more blacks than whites, Williams traces the changes in
community norms and values as white residents responded to a mass inf
