Princeton economics professors Alan S. Blinder and Mark W. Watson wrote a paper exploring the US economy's performance with respect to United States presidents, dating back to Harry Truman. And one thing they looked at was what happened in the markets during the lame duck session between the election and the inauguration of the new president. The stereotypical line of thinking is that Republicans are "better for the markets," because they theoretically push for more pro-business policies, such as lower taxes and less regulation. "Economics will matter more than politics." OK, but Trump is an atypical candidate who has unorthodox economic ideas. It's a truism that markets don't like uncertainty.
