When kids with autism have problem behaviors, inattention, or sleep issues, many medical and educational professionals, relatives, and friends recommend medication. Today, weâ€™re talking all about autism medication and supplements.Â Number 1, if youâ€™re not a physician specializing in pediatrics, autism, and/or mental health, you shouldnâ€™t be telling parents to medicate their child. Even though Iâ€™m a nurse and my husbandâ€™s a physician, we were in a maze for many years, until we found the right supplements and the right autism medication.Â Tip number 5 is to get out of the mindset that all biomedical supplements are pseudo-science and that all traditional medication is good.Â Autism and Sleep: How to Improve Sleep for Children with Autism.
