These days, specialists in non-Japanese comics have started to make reference to Japanese manga, and Japan Manga Books I JapanVisitor Japan Travel Guide Why do they have that distinctive style? What else is distinctive about Japanese comics? Why are people around the world copying this style? Who reads manga.

Manga! is an excellent, stand-out book on the history of Japanese comics, going way back to temple graffiti and traditional scroll paintings, through the graphic efforts that emulated England's Punch magazine, all the way up to all the disparate manga genres of today that, yes indeed, exemplify post-modernism: super-hero school boys and the dramatic lives of sushi chefs. The text explains, among other things, how Japanese characters are used as a graphic element in Manga, and Yukio Mishima's proud critiques of his country's Manga productions. He gives a good introduction into the sometimes esoteric world of Manga, Japanese art and culture more generally from the perspective of an American who has spent a great deal of time learning about these things. For example, they might consider manga, Japanese graphic novels. Though its roots are ancient, the form has flourished after World War II and it has now spread from Japan to the rest of the world, along with the animated films, anime, that derive from it (Schodt, 1986; Gravett). Some manga genres are realistic, but many are quite fantastic, drawing on motifs, symbols, and mythology from around the world. Manga!: The World of Japanese Comics Paperback. Frederik L. Schodt. 3.9 out of 5 stars 15.Â Ever wonder about those crazy Japanese comics called manga? So different from American comics. Well, Schodt gives you a very readable historical perspective on them, drawing all the way back to pre-industrial Japan. But he shows that the true flowering of manga arose in post-War Japan. Manga is seen in Japan as a serious literary form. While some manga are indeed trash, others are considered on a par with novels. The book has colour plates and black and white pictures of many manga, with English commentary. Glimpses of quite a different culture. Schodt wrote his study in 1983, when manga was s Manga! Manga! The World of Japanese Comics is a 1983 book by Frederik L. Schodt. Published by the Japanese publisher Kodansha, it was the first substantial English language work on the artistic, literary, commercial and sociological phenomenon of Japanese comics, or manga. Part of Schodt's motivation for writing it was to introduce manga to English speakers. The book is copiously illustrated and features a foreword by Osamu Tezuka. It also includes translated excerpts from Tezuka's Phoenix, Keiji
