There are numerous wild edible and medicinal plants in British Columbia that are used traditionally by First Nations peoples. These include seaweeds, rhizomes and shoots of flowering plants, berries, and fungi. Almost all major groups of wild plants in British Columbia have edible members that are reported to have been used by the First Nations peoples. Many are still used today. However, plant foods traditionally contributed only a part of the total food intake of coastal First Nations peoples of Welcome to "Wildflowers of British Columbia"! Up to now, there has been no FLICKR group specifically devoted to the wildflowers of this great province. Please post your wildflower photos from anywhere in BC, but note that NO GARDEN FLOWERS are permitted. Occasional photos of fruit or seedheads are also OK. Discussions. Thank you and some questions.

Dry Garden Garden Oasis Garden Beds Shade Garden Plants Room With Plants Ground Cover Plants Hardy Perennials Shade Trees Ground Covering. The southwestern area of British Columbia in Canada has some beautiful wildflowers. In this article I include photos and descriptions of seven of my favourite spring blossoms. British Columbia is Canada's most westerly province and is located next to the Pacific Ocean. The province has a wide range of picturesque habitats, including the coastal shore, mountains, forests, grasslands, lakes, rivers, and an interior "desert", which is technically a shrub-steppe ecosystem. Each region has its own distinctive collection of wildflowers. March and April are busy times for nature in southwestern BC, where I live. I enjoy taking photographs of my discoveries. I've chosen seven of my favourite spring flowers to describe in this article.
