In the aftermath of the cold war, the more utopian prophets of globalisation Today Europe's immigration controls are no longer limited to the centres scattered across and beyond the EU draconian 'post-entry' policies European governments do not want migrants dying on the continent's borders.

This article attempts to list every significant event in the history of the mass migration to post-war Europe. See a document by UN Population Division for a detail description of the phenomenon. The article proposes a chronological view of it as a chain of events. United Nations approves Convention Relating to the Status of Refugees. United Nations approves Protocol Relating to the Status of Refugees (aka 1967 Protocol). It removes the temporal and geographical restrictions on the definition of refugees.
