Landscaping with nature: Using nature's designs to plan your yard. Rodale

Landscaping creates natural surroundings making you feel one with nature. Not only that, it helps! If not, you can always hire professional landscape designers who can design a beautiful yard within your budget. 7. Rocks and stones are the most versatile materials used to landscape your yard. Laying beach pebbles or river rocks gives a great feel to the landscape. Flat stones can be used to pave pathways in your yard or a stone wall can be built to demarcate a patio area or at the base of a tree to create an attractive stone seating. Whether you decide to landscape your yard yourself or hire help to do it, you will still require landscaping supplies and materials. Still in the process of reading this book, but I am enjoying his approach to designing your own natural landscape. He leads you through the process by giving examples of his own experience. He teaches you how to see what is naturally there and how to recreate the same feeling if not the exact landscape. Add your own comment and rating to this book. Return to the Garden Bookworm homepage.
